Aim –

ICAI-SDG is aiming at illustrating the potential of Architectural communities for achieving the Sustainable Development Goals which were declared by the United Nations in 2015 as binding for 193 nations globally addressing under developed, developing and developed countries.

Objective -

ICAISDG theme parleys about how architectural community must and can play a significant role through the SDGs which should be achieved as projected in 2030.

ICAI-SDG proposes to give an overview of some of the existing efforts along with innovative resolutions, ideas and research in this area and it's written post conference report as an appeal to professionals, scientists and government organizations globally to take a holistic approach on the derived data.

ICAI-SDG activity desires to monitor and generate the effects of research work on the SDGs by Architectural community until now and update it in report format and proceedings.

ICAI-SDG will be definitely an enabler to identify more efficient resource handling, edification, societal framework and business operations reinforcing economy which is critical success factor for achieving the SDGs.

Publication opportunities in Peer-reviewed conference proceedings with ISBN and selected few in Scopus indexed journals
